“ James was my best friend in junior high. I'll always remember when he drove to school in a new TransAm and Gaylord the principal told him he could not park it there because there was only parking for teachers, not the kids who attended school. James and i always had a blast at school and on the bus. Another great memory was when he decided to play Smoke on the Water by deep purple and threw the boom box out the bus window as it was playing and we watched it bounce down the highway. I've been looking for James all these years and never could find him. RIP James, it was very real having you as my friend in the 8th grade. Gerald
