“ *Tony was one of the finest men I have ever known. He was such a unique individual with so many talents. He never ceased pursuing knowledge, he knew something about most everything. He used to come by Main Street Gifts and visit with me and I learned so much, whether it was useful information or foolishness. H was always a pleasure to be around. I later introduced him to my husband and boys and they also relished the time spent with him. This world was a better place because Tony was a part of it. May God's grace surround you at this time.*
